github.com/V1shnuuu

Creative Computer Science student with strong analytical thinking and problem-solving abilities. Experienced in developing software solutions, machine learning systems, and full-stack applications while continuously exploring modern technologies.

Education

Chennai Institute of Technology, Bachelor of Engineering in Computer Science and Engineering	2024 – 2028
D.A.V Sr Secondary School, Senior Secondary	2010 – 2024

Experience

UI/UX Design Intern, Revature, Chennai	05/2025 – 06/2025
--	-------------------

- Collaborated on UI/UX design projects, created wireframes, and responsive layouts using Figma.
- Conducted usability testing and iterative design improvements based on user feedback.

Software Intern, Intulogic Pvt. Ltd., Chennai	11/2025 – 12/2025
---	-------------------

- Assisted in real-world software development workflows.
- Worked with modern development tools used in production systems.
- Contributed to debugging and feature implementation.

Projects

Fever Oracle – Healthcare Monitoring System	2025
---	------

GitHub

- Built an ML-powered healthcare monitoring platform to predict fever risk.
- Developed dashboards with real-time alerts and analytics visualization.

Garbage Classifier using Deep Learning	2025
--	------

- Designed a CNN-based image classifier for biodegradable waste detection.
- Implemented models using TensorFlow and Keras.

Lend Loop – Peer-to-Peer Lending Platform	2024
---	------

GitHub

- Developed a resource lending platform with structured workflows.
- Implemented authentication and transaction tracking.

Achievements

-
- **BnB Chain Hackathon** – Finalist at Evo Arena for developing a blockchain solution (GitHub).
 - **Microlabs Hackathon** – Finalist for building the Fever Oracle healthcare monitoring system using ML.
 - Completed a Cybersecurity Workshop focused on threat detection and security practices.

Certifications

C for Beginners – Coursera	Websites using Wordpress – Coursera
Advanced HTML/CSS – Coursera	App with Azure Cognitive Services – Microsoft
CCNA: Introduction to Networks – Cisco	MongoDB Basics – MongoDB

Skills

Languages: Python, JavaScript, SQL, Java

Frameworks/Tools: React.js, Git, Figma, Photoshop, After Effects

Strengths: Analytical Thinking, Problem Solving, Creativity
